Lunar Wolf Allows You to Earn *Referral Based Rewards* through Your Network in **2 Ways** :

1. Profit Sharing

2. IB Income

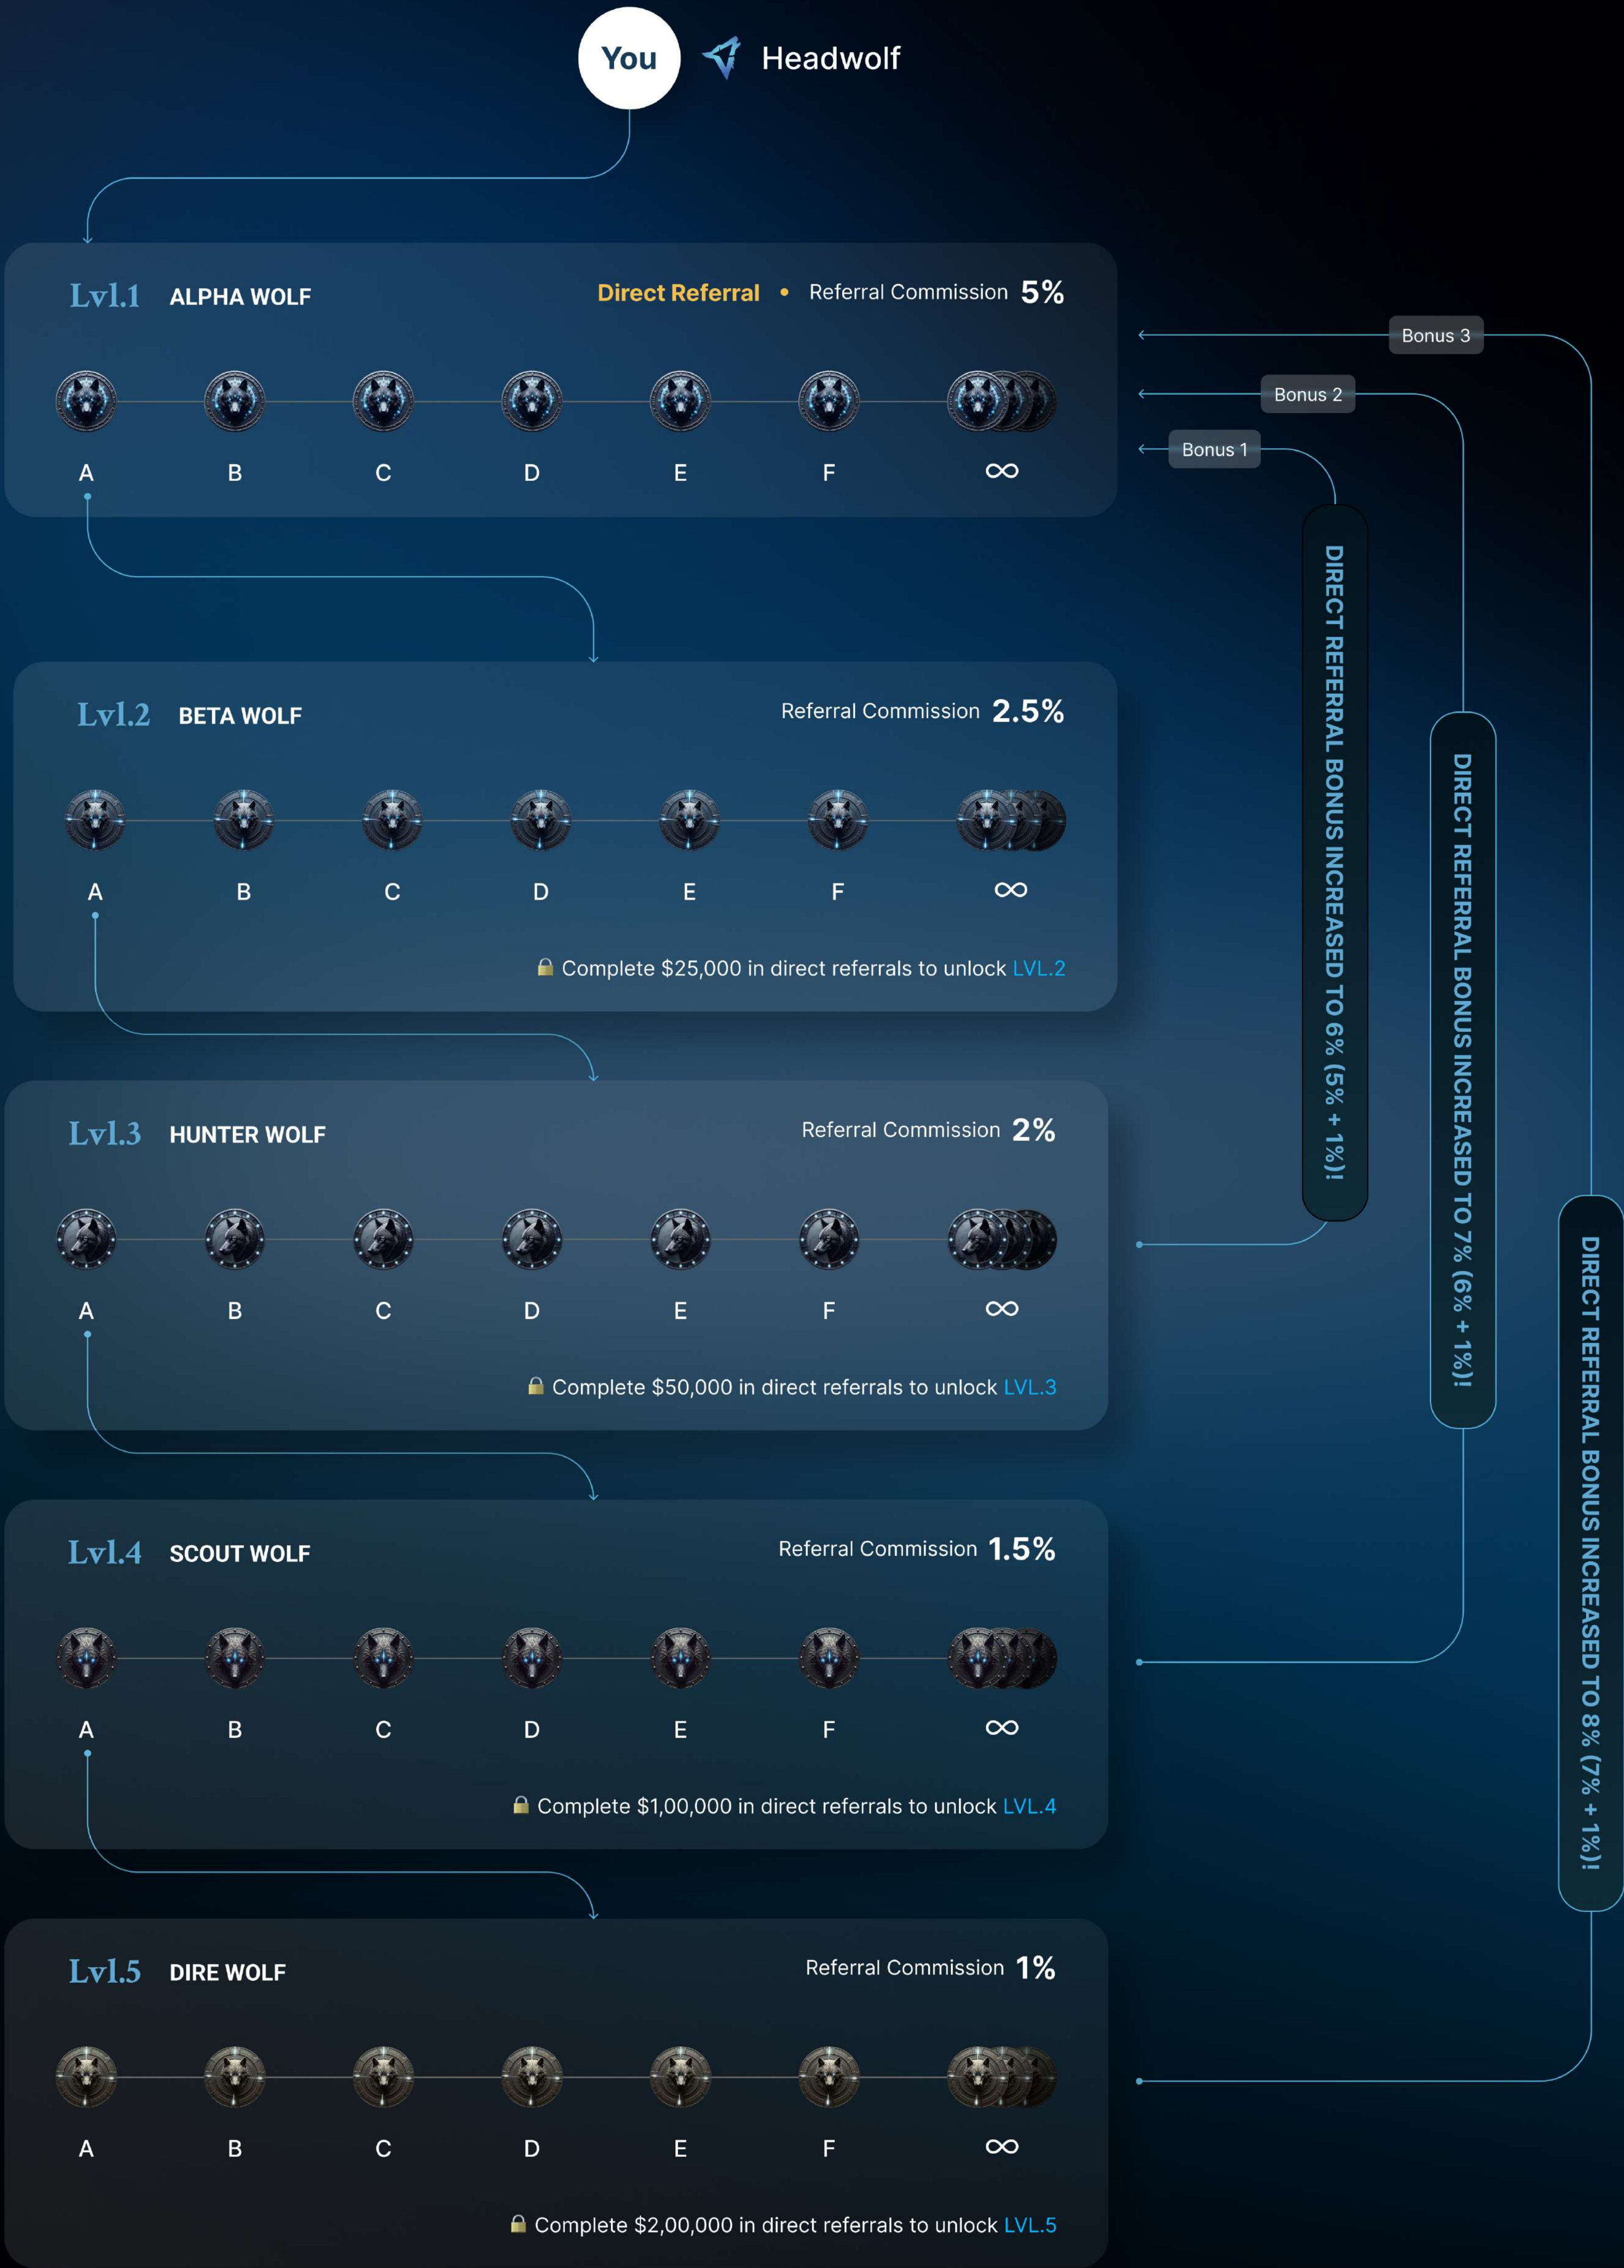

1 Profit Sharing

Profit Sharing model allows you to earn a percentage from the profit of your referrals. This goes strong upto 5 levels of referrals.

Profit Sharing Breakdown Chart

Level 1

When you refer an EA user to your network, you earn a default 5% share from the profits generated by their account. As your network grows, your earning potential grows alongside it.

Level 2

When EA users in your Level 1 network refer additional users, they form your Level 2 network.

For example, if you have 5 EA users in Level 1 and each of them refers 2 new users, your Level 2 network grows to 10 EA users.

Once the combined trading capital of your Level 1 network reaches \$25,000 or more, you become eligible to earn a 2.5% profit share from the trading activity generated by eligible Level 2 EA users.
